Elevating Storage Feeders

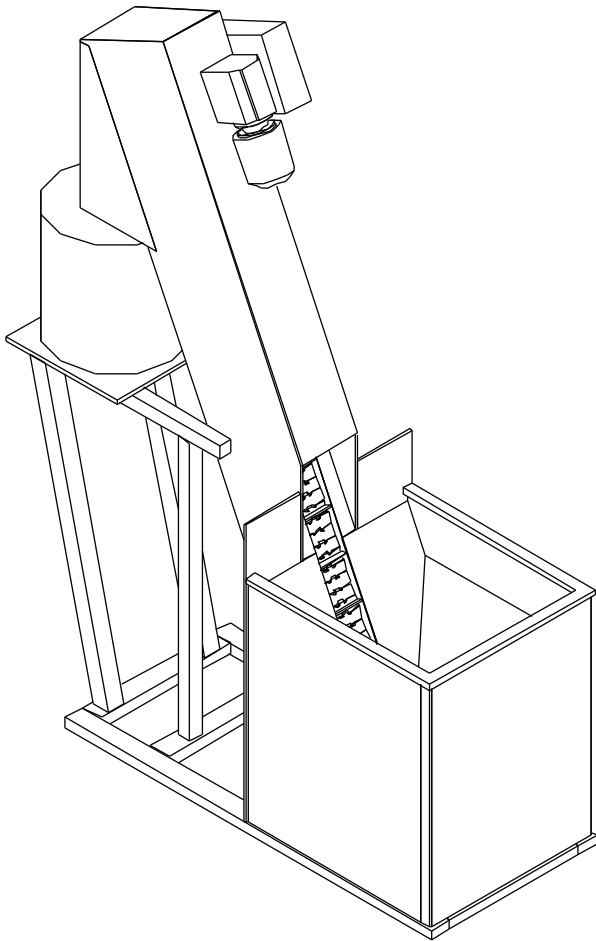

Advanced Automation Solutions unique Elevating Storage Feeders provide a continuous flow of parts at various heights to supply numerous processing systems. All of our storage feeders are sized and configured to meet your specific application. With our large selection of standard bin sizes and versatile drive options any production rate or storage capacity can be combined. Standard bin sizes range from 1 to 30 cubic feet. Optional bin linings and bin covers can assist in noise reduction. Choices of cleated belt, chain or magnetic elevators are available in widths ranging from 4.50" to 18.00".

Standard Features:

- * Jam free pivoting or tunnel type chain entry in bin bottom
- * Jam free angled elevator side guides
- * Heavy duty bin area
- * Premium quality elevator chain construction
- * Hardened steel chain guides
- * Lubricated chain slider bed

Options:

- * AC Motor 120Volt or 230/460 Volt 3-Ph drives
- * DC Motor adjustable speed control
- * Bin clean out door
- * Casters and floor locks
- * Stock Box Dumper
- * Sound control packages
- * Electrical controls
