

# ADVANCED AUTOMATION SOLUTIONS

## Advanced Automation for versatile Light Duty Vibratory parts feeding

Don't be trapped by the "one size fits all" philosophy. Our unique Light Duty Vibratory feeding solutions will meet your material handling needs. Standard lengths range from 18" to 36". These linear vibratory drives are specifically designed for high speed part transfer and small parts feeding applications. They offer space and cost savings over our heavy duty drives series. All of our versatile vibratory feeding products are sized and configured to suit your specific requirements. Our unique philosophy strives to offer new horizons in the design flexibility of feeding systems.

### **Features:**

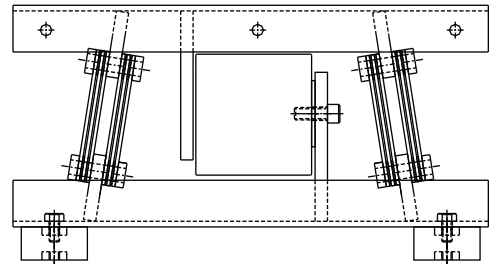

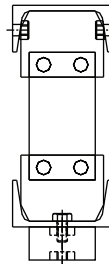

- \*Bolt in hardened tooling
- \*Solid state speed controller
- \*115vac powered electromagnetic drive
- \*Low noise production
- \*Dependable construction
- \*Prime reliability

### **Benefits:**

- \*Gentle parts handling, minimal part drops
- \*Capable of feeding parts at high speeds

### **Options:**

- \*Chose between 18" to 36" long models
- \*Part specific quick change tooling
- \*Sound control packages

Advanced Automation Solutions is dedicated to offering courteous and timely responses to our customer's needs. Furnishing quality equipment at competitive pricing. No project is too big or too small. Put us to the test. Our sales and engineering personnel are ready to assist you.
